a modified cellulose as a secondary polymer, wherein the coating does not contain a water insoluble polymer.

D 2
57. (Once amended) A coating comprising, (i) a modified starch wherein the modification includes ethylation, acetylation, methylation, hydroxypropyl substitution, hydroxyethyl substitution, carboxymethyl substitution or hydroxypropyl methyl substitution; (ii) a plasticizer; and (iii) a modified cellulose as a secondary polymer, wherein the coating is not a delayed release coating.

Please add the following new claims 59-75:

59. (added) A coating having,

a modified starch wherein the modification includes ethylation, acetylation, methylation, hydroxypropyl substitution, hydroxyethyl substitution, carboxymethyl substitution or hydroxypropyl methyl substitution;
a plasticizer; and a modified cellulose as a secondary polymer.

60. (added) The coating of claim 59, wherein the modified starch includes a methylation, a hydroxypropyl substitution or a hydroxypropyl methyl substitution.

D 3
61. (added) The coating of claim 59, wherein the modified cellulose is selected from the group consisting of ethylcellulose, methylcellulose, propylcellulose, hydroxypropyl cellulose, and cellulose esters and mixed esters.

62. (added) The coating of claim 59, wherein the modified cellulose is methylcellulose.

63. (added) The coating of claim 59, wherein the plasticizer is selected from the group consisting of fructose, high fructose corn syrup, glucose, lactose, maltose, galactose, raffinose and sucrose mixtures, sugar alcohols, polyethylene glycols, nonionic surfactants, polyols, maltodextrin, urea, triethylcitrate, and carboxylic acids or salts thereof.

64. (added) The coating of claim 59 further comprising one or more compounds selected from the group of pigments, lubricants and extenders.
65. (added) A granule comprising a granule core and the coating of claim 59.
66. (added) A composition comprising a tablet and the coating of claim 59.
67. (added) A cleaning composition comprising the granule of claim 65.
68. (added) A coated pharmaceutical dosage form comprising a pharmaceutical dosage and the coating of claim 59.
69. (added) A coated seed comprising a seed and the coating of claim 59.
70. (added) A textile composition comprising the granule of claim 65.
71. (added) A feed composition comprising the granule of claim 65.
72. (added) The coating of claim 60, wherein the modified starch includes a hydroxypropyl substitution.
73. (added) The coating of claim 63, wherein the plasticizer is a sugar alcohol, a polyethylene glycol or a polyol.
74. (added) The coating of claim 73, wherein the plasticizer is a sugar alcohol.
75. (added) The coating of claim 74, wherein the sugar alcohol is glycerol or sorbitol.
